

Engineering Services Committee
Meeting

Commission Chamber- 2/9/2016- 1:20 PM

ENGINEERING SERVICES

1. Discuss whether lead service lines (pipes) are utilized or have ever been used within the ARC Water System. If so, provide data to reflect the duration of usage and impact this practice has had on the public. Provide information on policies and procedures adopted to ensure that all ARC water dispensed is safe to consume and use. Explain the results of the infrastructure inventory as relates to possible unsafe/corroded service lines. Discuss any other relevant information not specifically requested. (Requested by Commissioner Lockett)  [Attachments](#)

2. Motion to approve the minutes of the Engineering Services Committee held on January 26, 2016.  [Attachments](#)

Subject: Committee Agenda Items (Next Cycle)

Hello Ms. Bonner:

Will you please place the following agenda items on the next committee cycle?

Discuss a proactive cautionary approach in dealing with the Ford Motor Company recall of Ranger Pickups due to faulty airbags. Plan to immediately discontinue the operation of any such vehicle in our fleet until appropriate action can be taken. Identify the number of vehicles involved and determine an interim replacement strategy. Commissioner Bill Lockett (Finance Committee)

Discuss whether lead service lines (pipes) are utilized or have ever been used within the ARC Water System. If so, provide data to reflect the duration of usage and impact this practice has had on the public. Provide information on policies and procedures adopted to ensure that all ARC water dispensed is safe to consume and use. Explain the results of the infrastructure inventory as relates to possible unsafe/corroded service lines. Discuss any other relevant information not specifically requested. Commissioner Bill Lockett (Engineering Services Committee)

Brigham Community Center (Senior Building) is used by a significant number of senior citizens and needs to be wired to accommodate a portable generator. The Fire Department has access to portable generators to be used at a downtown center and at Diamond Lakes during power failures. These failures normally occur during inclement weather. Brigham is located in the City-Center and is easily accessible by a large segment of the ARC population. Commissioner Bill Lockett (Public Services-Recreation and Facilities)
